

Amended Claims

Please amend the claims as follows:

1. (Currently Amended) A method of inducing a reward response in a subject a feeling of having already eaten, the method comprising administering to a subject a composition comprising an extract from *Mucuna pruriens*, which contains L-Dopa, and an extract from *Nelumbo nucifera*, which contains aporphine alkaloid, ~~in an amount effective to induce a reward response in the subject~~ wherein the amount of L-DOPA is 50 mg to 500 mg and the amount of the aporphine alkaloid is 2 mg to 50 mg per dose and wherein administration occurs between 30 and 90 minutes before a planned meal or snack.

2. -10 (Cancelled)

11. (Currently Amended) The method of claim 1, wherein said administration is oral and occurs at or within 90 45 minutes before the subject eats a meal or snack.

12. (Previously Presented) The method of claim 1, wherein the composition further comprises an extract from *Citrus aurantium* and an extract from *Griffonia simplicifolia*.

13. (Previously Presented) The method of claim 1, wherein the composition further comprises an extract from *Camellia sinensis*.

14. (Withdrawn) A composition for inducing a reward response in a subject, the composition comprising an effective amount of an extract from *Mucuna pruriens*, which contains L-Dopa and an extract from *Nelumbo nucifera*, which contains aporphine alkaloid and pharmaceutically acceptable excipients.

15. (Cancelled)

16. (Withdrawn) The composition of claim 14, wherein said composition comprises 150 mg of L-tyrosine (USP), 100 mg of extract from *Mucuna pruriens*, 100 mg of leaf extract from *Nelumbo nucifera*, and 40 mg of extract from *Citrus aurantium*, wherein 25% by weight of said *Mucuna pruriens* extract is L-DOPA, 8% by weight of said *Nelumbo nucifera* leaf extract is aporphine alkaloids, 30% by weight of said *Citrus aurantium* is one or more of an alkaloid selected from the group consisting of synephrine, octopamine, hordenine, tyramine and N-methyl-tyramine, and 25% by weight of said *Griffonia simplicifolia* extract is 5-hydroxytryptophan.

17. (Withdrawn) The composition of claim 16, which is in capsule form.

18. (Withdrawn) The composition of claim 14 further comprising an extract from *Mucuna pruriens*, an extract from *Camellia sinensis*, which contains aporphine alkaloids and a leaf extract from *Nelumbo nucifera*.

19. (Withdrawn) The composition of claim 18, wherein said composition comprises 300 mg of *Mucuna pruriens*, 250 mg of *Camellia sinensis* and 200 mg of *Nelumbo nucifera*, wherein 25% by weight of said *Mucuna pruriens* is L-DOPA, 36% by weight of said extract from *Camellia sinensis* is caffeine and 45% by weight is catechols, and 8% by weight of said *Nelumbo nucifera* leaf extract is aporphine alkaloids.

20. (Withdrawn) The composition of claim 19, which is in the form of a tablet.
