

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings of claims in the application:

Listing of Claims:

1. (Currently amended) A method of treating a non-skin cancer in a subject, said method comprising administering to the subject an effective amount of a composition comprising distilled or extracted sandalwood oil, wherein the subject has a non-skin cancer, and wherein the concentration of sandalwood oil in the composition is about 0.0002-0.1% sandalwood oil (w/w).
2. (Original) The method of claim 1, wherein the sandalwood oil is from *Santalum album* or *Santalum spicatum* or a combination thereof.
3. (Original) The method of claim 1, wherein the sandalwood oil is from *Santalum album*.
4. (Original) The method of claim 1, wherein the composition comprising sandalwood oil further comprises one or more pharmaceutically acceptable excipients.
5. (Cancelled)
6. (Original) The method of claim 1, wherein the non-skin cancer is selected from the group consisting of a breast cancer, a head and neck cancer, an ovarian cancer, a bladder cancer, a prostate cancer, a lung cancer, a renal cancer, a leukemia, a liver cancer, a pancreatic cancer, a colon cancer, and a central nervous system cancer.
7. (Original) The method of claim 3, wherein the non-skin cancer is selected from the group consisting of a breast cancer, a head and neck cancer, an ovarian cancer, a bladder cancer, a prostate cancer, a lung cancer, a renal cancer, a leukemia, a liver cancer, a pancreatic cancer, a colon cancer, and a central nervous system cancer.

8. (Original) The method of claim 4, wherein the non-skin cancer is selected from the group consisting of a breast cancer, a head and neck cancer, an ovarian cancer, a bladder cancer, a prostate cancer, a lung cancer, a renal cancer, a leukemia, a liver cancer, a pancreatic cancer, a colon cancer, and a central nervous system cancer.

9. (Withdrawn) A method of preventing the progression of actinic keratosis to squamous cell carcinoma (SCC) in a subject, comprising administering to a subject an effective amount of a composition comprising sandalwood oil, wherein the subject has actinic keratosis.

10. (Withdrawn) The method of claim 1, wherein the composition comprises about 1-300 micromolar sandalwood oil.

11. (Withdrawn) The method of claim 1, wherein the composition comprises about 0.0002-0.02% sandalwood oil (w/w).

12. (Withdrawn) The method of claim 1, wherein the composition comprises a concentration of sandalwood oil that is less toxic than the same concentration of cinnamon oil in a cell.

13. (Withdrawn) The method of claim 12, wherein the cell is a human MRC5 cell.

14. (Withdrawn) The method of claim 12, wherein the concentration is about 0.0002-0.02% (w/w).
