Patent Claims:

1. A synergistic composition comprising at least two ingredients/components selected from the extracts or fractions derived from *Sphaeranthus indicus*, *Coleus aromaticus*, *Cissus quadrangularis*, and *Curcuma longa*, *Garcinia mangostana*, *Citrullus lanatus*, *Ocimum sanctum* and *Cinnamomum tamala*, excluding a composition containing *Sphaeranthus indicus* and *Garcinia mangostana*, said composition optionally containing at least one ingredient selected from plant extracts, excipient, diluent or carrier for use in as a natural energy enhancer to providing an onset and steady maintenance of energy and for improving muscle strength, muscle mass and mental alertness in a warm blooded animal or mammal in need thereof.
- ~~2. A synergistic composition comprising at least two ingredients/components selected from the extracts or fractions derived from *Sphaeranthus indicus*, *Coleus aromaticus*, *Cissus quadrangularis*, *Curcuma longa*, *Garcinia mangostana*, *Citrullus lanatus*, *Ocimum sanctum* and *Cinnamomum tamala*, with an exclusion of the composition containing extracts/fractions from *Sphaeranthus indicus* and *Garcinia mangostana*.~~
- ~~3.2.~~ The synergistic composition according to claims 1 ~~to 2~~, which optionally comprises at least one biologically active ingredient selected from the extracts or fractions from *Ocimum basilicum*, *Zingiber officinalis*, *Tribulus terrestris*, *Trachyspermum ammi*, *Mentha arvensis*, *Piper cubeba* and *Foeniculum vulgare*.
- ~~4.3.~~ The synergistic composition according to claim 1, wherein said composition comprises extracts or fractions derived from *Cissus quadrangularis*, *Curcuma longa* and *Trachyspermum ammi*.
- ~~5.4.~~ The synergistic composition according to claims 1 ~~to 3~~ ~~to 4~~, wherein the concentration of the individual extracts or fractions derived from *Sphaeranthus indicus*, *Coleus aromaticus*, *Cissus quadrangularis* and, *Curcuma longa*, *Garcinia mangostana*, *Citrullus lanatus*, *Ocimum sanctum* and *Cinnamomum tamala* varies in the range of 20% to 80%.

~~6.5.~~ The synergistic composition according to claim ~~34~~, wherein the concentration of extracts or fractions derived from *Cissus quadrangularis*, *Curcuma longa* and *Trachyspermum ammi* varies from 20% to 80%.

~~7.~~ The synergistic composition according to claims 1 to 2, wherein the concentration of extracts or fractions derived from *Sphaeranthus indicus*, *Coleus aromaticus* and *Garcinia mangostana* varies from 20% to 80%.

~~8.~~ The synergistic compositions according to claims 1 to 3 comprising at least two ingredients selected herbal extracts or fractions derived from *Sphaeranthus indicus*, *Coleus aromaticus*, *Cissus quadrangularis*, *Curcuma longa*, *Garcinia mangostana*, *Citrullus lanatus*, *Ocimum sanctum* and *Cinnamomum tamala* for the onset and steady maintenance of energy, muscle strength, muscle mass, and mental alertness, physical activity, physical fitness, energy levels, stamina levels, circulatory health, blood vessel health or for better physical and mental health in a mammal.

~~9.6.~~ The synergistic compositions according to claims 1 to 2 comprising at least two ingredients selected from herbal extracts or fractions derived from *Sphaeranthus indicus*, *Coleus aromaticus*, *Cissus quadrangularis*, *Curcuma longa*, *Garcinia mangostana*, *Citrullus lanatus*, *Ocimum sanctum* and *Cinnamomum tamala*, which further contains optionally at least one ingredient selected from excipient, diluent, sweeteners, flavorants colorants, vitamins or amino acids, nutrients.

~~10.7.~~ The synergistic compositions according to claims 1 ~~or to 23~~, where the compositions can be formulated into a dietary supplements, food ingredient formulations such as beverages, snacks and energy drinks for enhancing, muscle strength, Muscle mass, physical activity, physical fitness, mental alertness, energy levels, stamina levels, circulatory health, blood vessel health or for better mental health in warm blooded animals in need thereof.

~~11.8.~~ The synergistic compositions according to claims 1 ~~or 2 to 3~~, where in the compositions are useful to improve aerobic performance and capacity by influencing lactic acid metabolism and reducing fatigue as well as for alleviation of one or more

of the biological energy markers including but not limited to ATP levels/production; Nitric Oxide levels, NADH balance, leptin levels and adipocytes derived peptides.

~~12.9.~~ The herbal extracts and fractions as claimed in claims 1 ~~or 2 to 3~~, wherein the extract or fractions are obtained~~can be derived from *Sphaeranthus indicus*, *Coleus aromaticus*, *Cissus quadrangularis*, *Curcuma longa*, *Garcinia mangostana*, *Citrullus lanatus*, *Ocimum sanctum* and *Cinnamomum tamala*, *Sphaeranthus indicus* and *Garcinia mangostana*, *Ocimum basilicum*, *Zingiber officinalis*, *Tribulus terrestris*, *Trachyspermum ammi*, *Mentha arvensis*, *Piper cubeba* and *Foeniculum vulgare* using a solvents selected from the group consisting of C1 to C5 alcohols; C1 to C7 hydrocarbons; esters; water and mixtures thereof.~~

~~13.10.~~ The herbal extracts, fractions and compositions claimed in claims 1 ~~or 2 to 3~~, is obtained from at least one of the plant part selected from leaves, fruit rind, flower heads, stem, root, bark, whole plant or mixtures thereof.

~~14. A method of enhancing natural energy, improving muscle strength, muscle mass and/or mental alertness in a warm blooded animal or mammal in need thereof, wherein the method comprises administering to a subject or mammal or warm blooded animal a therapeutically effective quantity of the composition comprising at least two ingredients selected from herbal extracts or fractions or compositions derived from *Sphaeranthus indicus*, *Coleus aromaticus*, *Cissus quadrangularis*, *Curcuma longa*, *Garcinia mangostana*, *Citrullus lanatus*, *Ocimum sanctum* and *Cinnamomum tamala*, which contain optionally at least one biologically active ingredient selected from the extracts or fractions from *Ocimum basilicum*, *Zingiber officinalis*, *Tribulus terrestris*, *Trachyspermum ammi*, *Mentha arvensis*, *Piper cubeba* and *Foeniculum vulgare*, as claimed in claims 1 to 3.~~

~~15. A method of ameliorating the biomarkers selected from ATP, Nitric Oxide, e.Nos, MAO, ACHE, Muscle protein, Miogenin and Enhancing muscle cell proliferation wherein the method comprises administering to a subject or mammal or warm blooded animal a therapeutically effective quantity of the composition comprising at least two ingredients selected from herbal extracts or fractions or compositions derived from *Sphaeranthus indicus*, *Coleus aromaticus*, *Cissus quadrangularis*, *Curcuma longa*,~~

~~*Garcinia mangostana*, *Citrullus lanatus*, *Ocimum sanctum* and *Cinnamomum tamala*, which optionally comprises at least one biologically active ingredient selected from the extracts or fractions from *Ocimum basilicum*, *Zingiber officinalis*, *Tribulus terrestris*, *Trachyspermum ammi*, *Mentha arvensis*, *Piper cubeba* and *Foeniculum vulgare*, as claimed in claims 1 to 3.~~
