

CLAIMS

1. A compound selected from 9,19-cyclolanostan-3-ol and 24-methylene-9,19-cyclolanostan-3-ol for use in improving hyperglycemia.

2. A composition comprising an extract selected from an ethyl acetate/butanol mixture extract and a chloroform/methanol mixture extract of Aloe vera (Aloe barbadensis Miller) or a fraction thereof for use as a drug for improving hyperglycemia, wherein the extract comprises 0.001 to 10% by dry mass of the compound selected from 9,19-cyclolanostan-3-ol and 24-methylene-9,19-cyclolanostan-3-ol ~~for use as a drug for improving hyperglycemia.~~

3. A composition comprising an extract selected from an ethyl acetate/butanol mixture extract and a chloroform/methanol mixture extract of Aloe vera (Aloe barbadensis Miller) or a fraction thereof for use as a food or drink for improving hyperglycemia, wherein the extract comprises 0.0001 to 1% by dry mass of the compound selected from 9,19-cyclolanostan-3-ol and 24-methylene-9,19-cyclolanostan-3-ol ~~for use as a food or drink for improving hyperglycemia.~~

~~4. The composition according to claim 2 or 3, which comprises an organic solvent extract or hot water extract of a plant or a fraction thereof.~~

~~5. The composition according to claim 4, wherein the plant is a plant of the family Gramineae or Liliaceae.~~

~~6. The composition according to claim 5, wherein the plant of the family Liliaceae is Aloe vera (Aloe barbadensis Miller).~~

~~74. The composition according to any one of claims 3 to 6, claim 3, which is attached with an indication that it is used for improvement of hyperglycemia.~~

85. Use of a compound selected from 9,19-cyclolanostan-3-ol and 24-methylene-9,19-cyclolanostan-3-ol for the production of a drug for improving hyperglycemia.

86. Use of a compound selected from 9,19-cyclolanostan-3-ol and 24-methylene-9,19-cyclolanostan-3-ol for the production of a food or drink for improving hyperglycemia.

107. Use of a composition ~~containing~~ comprising an extract selected from an ethyl acetate/butanol mixture extract and a chloroform/methanol mixture extract of Aloe vera (Aloe barbadensis Miller) or a fraction thereof for the production of a drug for improving hyperglycemia, wherein the extract comprises 0.001 to 10% by dry mass of a compound selected from 9,19-cyclolanostan-3-ol and 24-methylene-9,19-cyclolanostan-3-ol ~~for the production of a drug for improving hyperglycemia.~~

113. Use of a composition ~~containing~~ comprising an extract selected from an ethyl acetate/butanol mixture extract and a chloroform/methanol mixture extract of Aloe vera (Aloe barbadensis Miller) of a fraction thereof for

the production of a food or drink for improving hyperglycemia, wherein the extract comprises 0.0001 to 1% by dry mass of the compound selected from 9,19-cyclolanostan-3-ol and 24-methylene-9,19-cyclolanostan-3-ol for the production of a food or drink for improving hyperglycemia.

~~12. Use of a composition comprising 0.001 to 10% by dry mass of the compound selected from 9,19-cyclolanostan-3-ol and 24-methylene-9,19-cyclolanostan-3-ol for the production of a drug for improving hyperglycemia,~~

~~13. Use of a composition comprising 0.0001 to 1% by dry mass of the compound selected from 9,19-cyclolanostan-3-ol and 24-methylene-9,19-cyclolanostan-3-ol for the production of food or drink for improving hyperglycemia,~~

~~14. The use according to any one of claim 10 to 13, wherein the composition comprises an organic solvent extract or hot water extract of a plant or a fraction thereof,~~

~~15. The use according to cl~~

~~claim 14, wherein the plant is a plant of the family
Gramineae or Liliaceae.~~

~~16. The use according to claim 15, wherein the
plant of the family Liliaceae is Aloe vera (Aloe
barbadensis ~~Mills~~).~~
