European Patent Application No.: 05 720 817.5-2403

Applicant: Maruzen Pharmaceuticals Co. Ltd.

Claims

- 5
1. ~~An oil-soluble licorice extract, wherein the oil-soluble licorice extract comprises glabridin for use in the prevention or treatment of a condition selected from the group consisting of contact dermatitis, psoriasis and pemphigus vulgaris.~~
- 10
21. An oil-soluble licorice extract, wherein the oil-soluble licorice extract comprises licochalcone A for use in the prevention or treatment of inflammation, and wherein a total content of licochalcone A in the oil-soluble licorice extract is ~~4% by mass to 80% by mass~~ 10% by mass to 40% by mass based on the dry solid content,
- 15
- wherein the oil-soluble licorice extract is prepared by subjecting at least one of a leguminous plant of the genus Glycyrrhiza and a water extraction residue of a leguminous plant of the Glycyrrhiza to an extraction treatment with an organic solvent, and the leguminous plant of the genus Glycyrrhiza is at least one selected from Glycyrrhiza inflata and Glycyrrhiza echinata.
- 20
3. ~~The oil-soluble licorice extract for use according to one of claims 1 or 2, wherein the oil-soluble licorice extract is prepared by subjecting at least one of a leguminous plant of the genus Glycyrrhiza and a water extraction residue of a leguminous plant of the Glycyrrhiza to an extraction treatment with an organic solvent.~~
- 25
42. The oil-soluble licorice extract for use according to ~~one of claims 1 to 3~~ claim 1, wherein the oil-soluble licorice extract is prepared by subjecting at least one of roots, rhizomes, leaves, and stems of a leguminous plant of the genus Glycyrrhiza, and water extraction residues thereof to an extraction treatment with an organic solvent, and wherein the organic solvent is at least one selected from ethanol, hydrous ethanol, and ethyl acetate.
- 30
5. ~~The oil-soluble licorice extract for use according to one of claims 1 to 4, wherein the leguminous plant of the genus Glycyrrhiza is at least one selected from Glycyrrhiza glabra, Glycyrrhiza inflata, Glycyrrhiza araleasis, Glycyrrhiza uralensis and Glycyrrhiza echinata.~~
- 35

6. ~~The oil-soluble licorice extract for use according to one of claims 1 or 3 to 5, wherein a total content of glabridin in the oil-soluble licorice extract is 1% by mass to 80% by mass based on dry solid content.~~
- 5 7. ~~The oil-soluble licorice extract for use according to one of claims 1 or 3 to 6, wherein a content of glabridin in an oil-soluble licorice extract of *Glycyrrhiza glabra* is 1% by mass or more based on dry solid content.~~
- 10 8. ~~The oil-soluble licorice extract for use according to one of claims 2 to 5, wherein a content of licochalcone A in an oil-soluble licorice extract of *Glycyrrhiza echinata* is 1% by mass or more based on dry solid content.~~
- 15 9. ~~The oil-soluble licorice extract for use according to one of claims 2 to 5, wherein a content of licochalcone A in an oil-soluble licorice extract of *Glycyrrhiza inflata* is 1% by mass or more based on dry solid content.~~
103. The oil-soluble licorice extract for use according to one of claims 1 to 92, which is used as an external preparation for skin.
- 20 114. The oil-soluble licorice extract for use according to one of claims 2 to 101 to 3, wherein the oil-soluble licorice extract is used in the prevention or treatment of a condition selected from the group consisting of contact dermatitis, psoriasis and pemphigus vulgaris.
