Claims

1. A skincare composition suitable for topical application to the skin, the composition comprising salicylic acid or a salt thereof in combination with ~~at least~~ ² ~~actives selected from the group consisting of:~~
- lactic acid or a salt thereof;
 - glycyrrhizinic acid or a salt or derivative thereof;
 - bisabolol;
 - cetylhydroxyproline palmitamide; ^{and} ~~allantoin;~~
 - niacinamide; ~~and;~~
 - ~~epilobium angustifolium extract.~~
2. A composition as claimed in Claim 1, wherein the concentration of salicylic acid or lactic acid or a salt of lactic acid is at least 0.01 percent by weight, more preferably at least 0.1 percent by weight and most preferably at least 1 percent by weight.
3. A composition as claimed in Claim 2, wherein the concentration of salicylic acid or lactic acid or a salt thereof is less than 10 percent by weight, more preferably less than 5 percent by weight, and most preferably less than 3 percent by weight.
4. A composition as claimed in Claim 1, wherein the concentration of glycyrrhizinic acid or a salt or derivative thereof is at least 0.01 percent by weight.
5. A composition as claimed in Claim 4, wherein the concentration of glycyrrhizinic acid or a salt or derivative thereof is less than 2 percent by weight, more preferably less than 1 percent by weight, and most preferably less than 0.5 percent by weight.

6. A composition as claimed in Claim 1, wherein the concentration of bisabolol or cetylhydroxyproline palmitamide is at least 0.001 percent by weight, more preferably at least 0.01 percent by weight and most preferably at least 0.02 percent by weight.

7. A composition as claimed in Claim 6, wherein the concentration of bisabolol or cetylhydroxyproline palmitamide is less than 1 percent by weight, more preferably less than 0.5 percent by weight.

8. A composition as claimed in Claim 1, wherein the concentration of allantoin is at least 0.01 percent by weight, more preferably at least 0.1 percent by weight and most preferably at least 0.2 percent by weight.

9. A composition as claimed in Claim 8, wherein the concentration of allantoin is less than 5 percent by weight, more preferably less than 2 percent by weight, and most preferably less than 1 percent by weight.

10. A composition as claimed in Claim 1, wherein the concentration of niacinamide is at least 0.01 percent by weight, more preferably at least 0.1 percent by weight and most preferably at least 1 percent by weight.

11. A composition as claimed in Claim 10, wherein the concentration of niacinamide is less than 10 percent by weight, more preferably less than 5 percent by weight.

12. A composition as claimed in Claim 1, wherein the concentration of epilobium angustifolium is at least 0.001 percent by weight, more preferably at least 0.01 percent by weight.

13. A composition as claimed in Claim 12, wherein the concentration of epilobium angustifolium is less than 1 percent by weight, more preferably less than 0.5 percent by weight.

10

14 A skincare composition according to any preceding claim comprising 0.1 to 5 wt% salicylic acid or a salt thereof in combination with ~~at least 2 actives selected from the group consisting of:~~

- 0.1 to 5 wt% lactic acid or a salt thereof;
- 5 • 0.01 to 1 wt% glycyrrhizinic acid or a salt or derivative;
- 0.001 to 1 wt% bisabolol;
- 0.001 to 1 wt% cetylhydroxyproline palmitamide
- 0.1 to 2 wt% allantoin;
- 0.1 to 5 wt% niacinamide; and,
- 10 • 0.001 to 1% epilobium angustifolium extract.

11

15 15 A composition as claimed in any preceding claim wherein the pH is in the range from 3.5 to 6.0.

- 16 16 A composition as claimed in any preceding claim further comprising one or more further topically active skincare agents selected from an antimicrobial or anti-bacterial compound, an anti-viral compound, an anti-fungal compound, an anti-inflammatory compound and an anthelmintic compound

13

- 20 17 A composition as claimed in any preceding claim, which has the form of an aqueous or oily solution, surfactant wash or dispersion or emulsion or a gel.

14

18 A composition as claimed in any preceding claim, which further comprises a gelling and/or a thickening agent.

- 25 15

19 A composition as claimed in any preceding claim, which comprises an aqueous solvent system.

16

15

- 30 20 A composition as claimed in Claim 18, wherein the solvent system is a mixed solvent system comprising water in admixture with a co-solvent

17

21 An article comprising a fibrous substrate impregnated with a skincare composition according to claim 1

~~22 A method for the prophylactic or remedial treatment of acne which method comprises the topical application to the skin of a patient of a skincare composition according to claim 1.~~

5

~~23 A method as claimed in Claim 22, which is a cosmetic method~~

~~24 A method as claimed in Claim 22, which is a therapeutic method.~~

- 10 25 The use of a composition according to claim 1 in a composition for the prophylactic or remedial treatment of acne by topical application of the composition to the skin.

~~26 A method for reducing irritancy associated with the topical application of a skincare composition comprising salicylic acid in combination with at 2 actives selected from the group consisting of lactic acid or a salt thereof; glycyrrhizinic acid or a salt or derivative thereof; bisabolol; cetylhydroxyproline palmitamide; allantoin; niacinamide; and epilobium angustifolium extract.~~

- 20 27 A cosmetic method for improving the appearance of skin afflicted by acne lesions, said method comprising reducing the redness of said lesions by the topical application of a skincare composition comprising salicylic acid in combination with at least 2 actives selected from the group consisting of lactic acid or a salt thereof; glycyrrhizinic acid or a salt or derivative thereof;
- 25 ~~bisabolol; cetylhydroxyproline palmitamide; allantoin; niacinamide; and epilobium angustifolium extract~~
