

Amended Claims (Additions/Deletions):

1. Use of one or more lactosylated milk protein fractions and/or one or more lactosylated milk protein preparations exhibiting a cyclooxygenase-2 inhibiting activity for the preparation of a nutritional and/or pharmaceutical composition for treating and/or preventing cyclooxygenase-2 mediated diseases, wherein the lactosylated milk proteins are obtained ~~lactosylated~~ by heating the milk proteins in the presence of lactose.
2. The use according to claim 1, wherein the milk protein fractions and/or the milk protein preparations exhibiting a cyclooxygenase-2 inhibiting activity are selected from the group consisting of whey fractions, skimmed milk fraction, native whey protein isolate preparation of human milk, bovine milk, buffalo milk, acid casein fraction and/or sweet casein fraction of bovine milk, and/or combinations thereof.
3. The use according to claim 1, wherein the nutritional and/or pharmaceutical composition is provided in oral, topical, parenteral, or rectal dosage form.
4. The use according to claim 1 to 3, wherein the cyclooxygenase-2 mediated diseases are selected from the group consisting of cancer and/or pre-cancerous states, in particular cancer and/or pre-cancerous states of the colon, stomach, esophagus, liver, biliary stem, pancreas, head and neck, lung, breast, bladder, female genital organs and skin, and/or inflammatory diseases, in particular arthritis, rheumatic fever, symptoms associated with Influenza or other viral infections, dysmenorrhoea, headache, toothache, degenerative joint diseases, and/or Alzheimer's disease.
5. The use according to any of the claims 1 to 3, wherein the pharmaceutical and/or nutritional composition provides a co-treatment during a cancer treatment and/or a treatment of a pre-cancerous state, in particular during a chemotherapy, a radiation therapy, a biotherapy, and/or during a pain treatment, and/or during a treatment of an inflammatory disease and/or during the treatment of Alzheimer's disease.
6. The use according to any of the claims 1 to 4, wherein the nutritional composition comprises a food material selected from milk, yogurt, curd, cheese, fermented milks, milk based fermented products, ice-creams, cereal based products, milk based powders, infant formulae.
